“

Our focus remains on inventing and adopting more efficient and sustainable services that will help bring energy to the world. This is how we will take energy forward.

Alex Whaler

Built Underwater
POWERING THE FUTURE

About Us

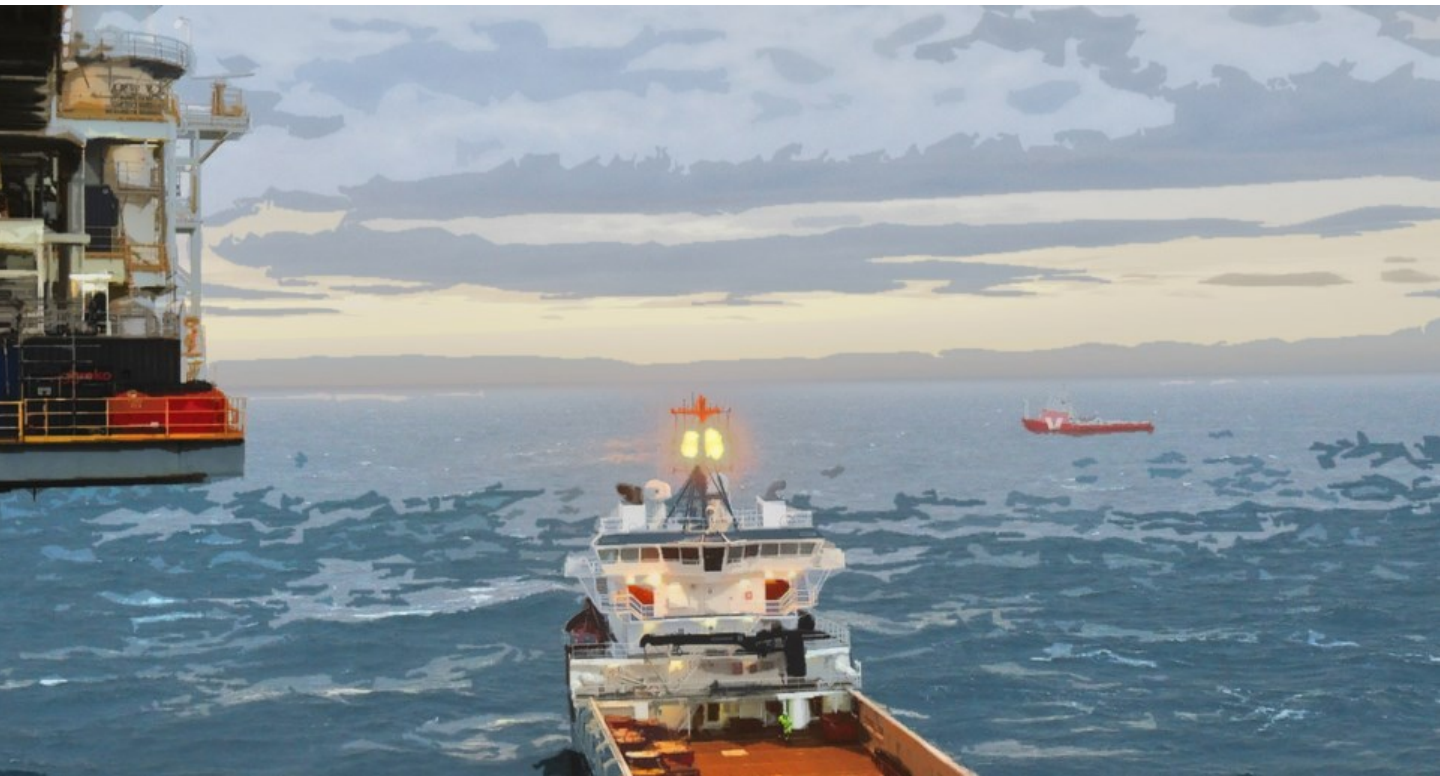

STORY

Prior to establishing Alex Whaler, Capt. Mohamed El-Deeb spent his early career with Egyptian Navy with several leading roles ended by Destroyer commander then retirement as a Commodore.

After his retirement from the Egyptian Navy, Capt. Mohamed El-Deeb hired as DPA, Port Captain & Company Security Officer for several offshore companies then joined “Arab Academy for science & Technology” team to establish the Regional Maritime Security Institute (RMSI). Then started his private business by establishing “North Africa for Trading Co - NATCO” at 2009 shipbroker, marine services and trading company well reputed held several consultancy and services to marine & offshore companies.

In 2019 decided to rename & develop NATCO to become Alex Whaler with partnership of his eldest son Mr. Ahmed El-Deeb who is well known as marine & offshore consultant also held MBA & demonstrated history of working in several offshore & marine leading roles.

Combination of their great experience, relations, reputation & partners worldwide in marine, offshore, oil & gas and defense industry will lead Alex Whaler to professionally meet the needs of energy, shipping industry & security by offering a wide range of services in continental offshore and onshore.

STRATEGIES

Mission

Develop a sustainable relationship with all parties based on trust and the quality of our services to provide safe, reliable and cost effective solutions in accordance with our professional management system and all applicable laws, regulations and international instruments.

Vision

Actively taking part in solving the energy & shipping challenges of tomorrow.

Values

Alex Whaler Vision is supported by our three key values:

People

We will provide a workplace built on trust, cooperation and mutual respect where our people care about their safety and the safety of those around them.

Customer Relationships

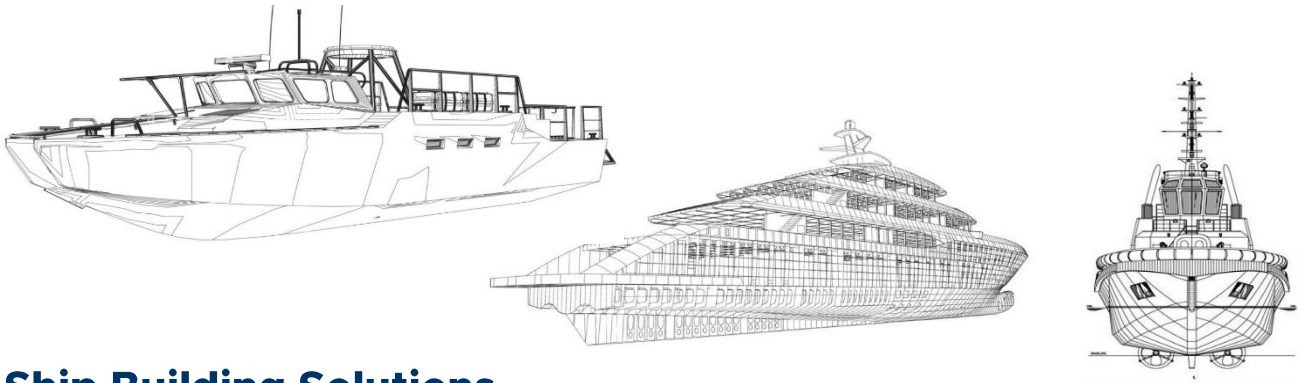

We will understand our customers' requirements by building long-term collaborative relationships. We will provide safe and proactive solutions that deliver beyond expectations.

Team Work

We will share knowledge, resources and services across our business. We will work together as one team to achieve our common goals.

Alex Whaler's success relies on a clear vision, a sustainable mission and essential values shared by everyone.

Ship Building Solutions

From beginning to end, each vessel is constructed with a level of superior craftsmanship and fine attention to detail that symbolizes Alex Whaler Excellence. Alex Whaler team works closely with the ship owner throughout the building process from requested specifications, outlines, design, components, manufacturing till sea-trials and delivery.

We support clients with the realization of new and innovative projects, from concept to completion.

Alex Whaler Shipbuilding Solutions strength lies in the unique combination of theoretical knowledge of design, regulations and shipbuilding and extensive practical experience with shipbuilding and navigation.

Our technical office and partners that are dedicated to the design of our ships to adapt them to the needs of the final customer. All projects are developed using the best naval architectural basics, detailed design services and naval applications to show as much as possible the final result that the customer contract then this design is used for the direct production of all the components.

From Alex Whaler perspective, quality is an important objective in all our shipbuilding projects. For this reason, we only use appropriate top-quality materials for this purpose, following the manufacturer's specifications, and manipulated by qualified personnel following the guidelines of our quality standards and marine industry highest quality standards.

“The decision to build a custom vessel is based on many factors, including the experience, the passion and the professionalism. Alex Whaler is dedicated to making the vessel of your dreams a reality.”

By choosing Alex Whaler, we assure you to find a reliable response from the first contact to the delivery of the vessel, with the security of receiving your vessel with a quality that fully meets your needs, requirements and expectations within the deadlines agreed.

Quality objectives are defined annually, monitoring is carried out to control the degree of achievement of the same and having continuous improvement as one more objective.

Bridge Solutions

Alex Whaler supply and offers a choice of well-selected quality products produced by the world's leading electronic manufacturers make your vessel's bridge smarter, safer, more efficiency and saving time & assets.

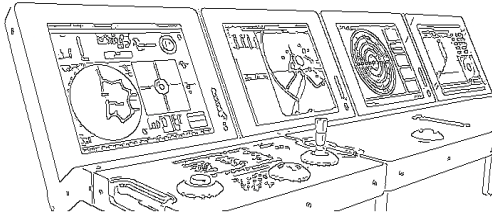

Vessel Pre-Purchase Inspection

Alex Whaler offer pre-purchase vessel condition assessment services on major ports around the world. Our global network of expert ship inspectors enables us to appoint the best inspector nearest to the inspection port without any overhead cost.

Our inspectors have Chief Engineer and Technical Superintendent backgrounds and conduct the most efficient yet detailed assessments of the vessel condition. With unbiased assessment and judgment, they help to identify businesses' exposure to potential risks from the purchase of second-hand vessels.

We Listen, We Analyze, We Solve.

Annual DP Trial

Alex Whaler provide annual DP Trial in a series of tests to verify the integrity of the DP system. The trial improves the safety of the operations by encouraging vessel operators to carry out detailed, auditable tests on an annual basis, and verifying that the DP system is fully functional, well maintained and that the FMEA established remains valid.

The Annual Trial will demonstrate:

- The vessel's ability to maintain position following identified single failures;
- The DP system is fully functional and well maintained;
- Contributes to the effective management of the FMEA;
- Ensures the best use of the time available for DP system tests.

The trial also provides an opportunity for training of the vessel's crew, some of whom may be new to the vessel, particularly with respect to the effects of failures within the system and the actions to be taken in the event of those failures occurring.

The Annual DP Trial is carried out after the DP FMEA Proving Trial Program is done and usually takes about 1 to 2 days.

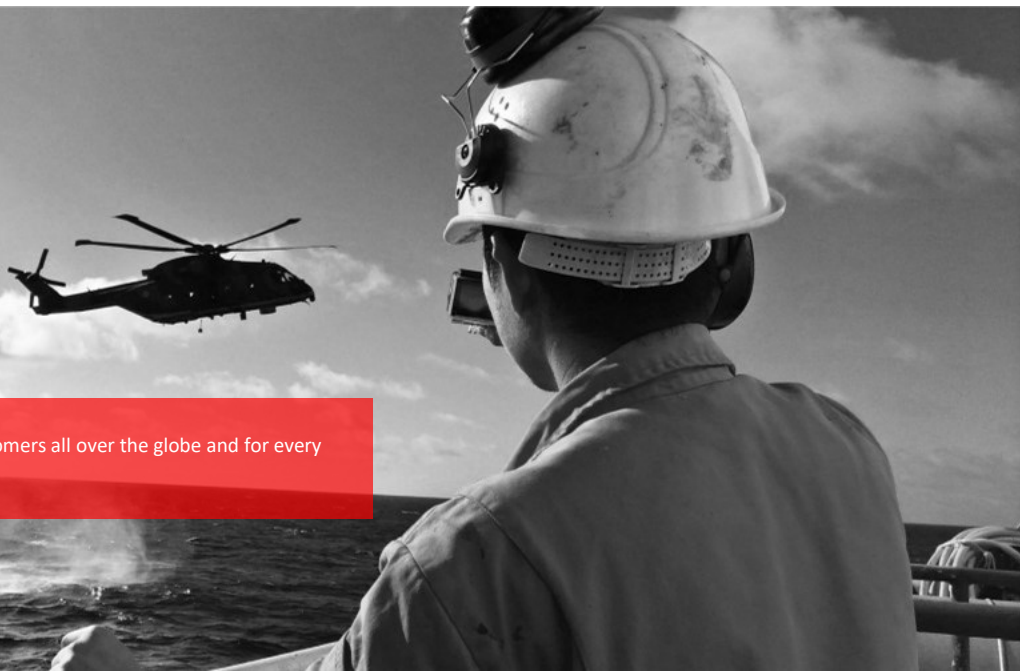

Marine & Certification Consultancy

Alex Whaler offer wide range of marine & vessel certification consultancy for your fleet includes:

- Preparation & implementation of ISM & MLC manuals and ISPS plans.
- Training of your employee & seafarers regarding ISM, MLC, SSP, Flag state and Class/RO certificates.
- Preparation of your employees, vessel & crew before ISM, MLC & ISPS audits and Class/RO inspection and audit.
- Dealing with flag state & Class/RO regarding renewals, transfer of Flag/Class.

We provide unbeatable value to customers all over the globe and for every phase of the industry life cycle
